BIG LEAGUE BALL IN HICKMAN.

In one of the best games of ball seen in Hickman in many a day the local team beat Hornbeak Sunday by a score of six to five. It took eleven innings to decide and every inning was full of snap and pepper from start to finish. While the local team made eight errors, only one of which hurt their chances, they made up by hitting and base running what they lost by mishaps. The game was a pitchers' battle between Parrish and Heddin and both showed good control. Parrish allowed five hits and one pass in nine innings. Heddin only passed one man but was hit hard. Sexton led the locals in batting with four hits out of six times at bat, one of which was a three base hit, while Parrish and Leibovitz both secured three hits. Osburn made a great running catch in center in the ninth which saved the game, and Baker made a wonderful stop of a high throw and tagged a runner at second which was one of the features of the game. To sum it up in a few words it

was a wonderful game considering the fact that neither team has had much practice this year. The locals have a well balanced team which can hit the ball and all fans should assist them in every way possible, for in that way only can we expect to have ball here this year.

PLANT SOY BEANS. A VALUABLE CROP.

Soy beans are a legume, and therefore put the same properties in the soil as clover and cow peas, thus building up the land in the same way as do all other legumes.

Soy beans have not been generally known in this country but a few years, and like everything that is new there have been many mistakes made in their uses and in the selection of the proper varieties.

There are several hundred varieties of these beans, but only a few of these have been grown extensively enough for the seed to be on the general market. However, you can secure from most any good dealer the varieties best adapted to our conditions.

The varieties are Mammoth Yellow, large yellow beans, taking from 80 to 200 days to mature, and does not mature in this climate, but may be planted in the corn, and will furnish a large amount of hay feed after the corn is planted.

The Sen is also a yellow bean and matures in 100 or 115 days. This bean is more adapted to planting with the corn as it will mature with the corn.

Elbony or Black Beauty is a 90 day bean and will mature if planted in the corn at the last cultivation.

Harberlandt is another 100-day bean found on the general market.

Soy beans are richer than peas in food value and furnish almost three times the amount of feed that peas do under the same conditions.

Soy beans weigh 50 pounds to the bushel and one bushel will drill three acres in rows twenty inches apart, or about eight or nine acres with the corn. The beans yield from ten to thirty bushels to the acre, and there is a good sale for mature seed of good varieties.

The Republican convention at Chicago is on today.

A CITY'S PROGRESS—OR IT'S LACK OF IT.

Casualty discussing local conditions with local merchants one day last week, the gentleman confided to us that Hickman is not forging ahead with her old time vigor; business is not what it once was, etc.

If not, why not? What's the trouble, Mr. Business man? Its certainly not the town's fault; no, sir-ee. On the contrary, the citizens—the business men—of a town make or mar its prosperity. A town is not like Topsey, "Jist growed." Its people must take its advantages, push its good points, and set forth its location and adaptiveness for whatever purpose it is best suited.

Weeds spring up unsworn and flourish unattended, but a field of corn must be cultivated. So it is with villages, towns and cities. Some one must work to pull the community out of the slough of lifelessness.

The live town is alive because its citizens are alive. The more pep they put into the job, the better for the place. Three or four good workers can raise a town from the dead. In the last fifteen years cross-roads settlements have become flourishing villages, moribund villages have grown into the city class. Regardless of natural advantages, somebody hustled to bring about the growth in each place.

And did these hustlers have the cheerful assistance of their neighbors? Nay, nay, Nehemiah! The neighbors stood around and kicked and knocked. There was never a leader from the time of did not have to queer the scoffs Noah down to the present, who and scorns and taunts of the ingrates he were trying to help. The town hustlers who are up and doing get no encouragement from the members of the knock-cabinet. That is why some stand still. What are YOU doing to help man?

The city dads thus far, we are told, have failed to make the borrow contemplated for the purpose of taking up their outstanding warrants. Something like \$8,000 is needed to clean up the local indebtedness. Outstanding warrants may continue "outstanding" until taxes are collected this fall.

"NOVELTY" is the keynote of interest to the smartly gowned woman, whose footwear harmonizes with the rest of the costume. And novelty is featured here as never before for the Summer season of 1916: The lasts are distinctive.

NONE of the little refinements that give charm and smartness to the new pumps are lacking in this summery display. The slender, well arched look they yield to the foot is in keeping with the vogue of the short skirt. It is a "quality" showing of the highest class.

Regardless of natural advantages, somebody hustled to bring about the growth in each place.

And did these hustlers have the cheerful assistance of their neighbors? Nay, nay, Nehemiah! The neighbors stood around and kicked and knocked. There was never a leader from the time of did not have to queer the scoffs Noah down to the present, who and scorns and taunts of the ingrates he were trying to help. The town hustlers who are up and doing get no encouragement from the members of the knock-cabinet. That is why some stand still.

What are YOU doing to help man? The city dads thus far, we are told, have failed to make the borrow contemplated for the purpose of taking up their outstanding warrants. Something like \$8,000 is needed to clean up the local indebtedness. Outstanding warrants may continue "outstanding" until taxes are collected this fall.

The House has voted an appropriation for the building of 50 submarines.

BIG LEAGUE BALL IN HICKMAN.

In one of the best games of ball seen in Hickman in many a day the local team beat Hornbeak Sunday by a score of six to five. It took eleven innings to decide and every inning was full of snap and pepper from start to finish. While the local team made eight errors, only one of which hurt their chances, they made up by hitting and base running what they lost by mishaps. The game was a pitchers' battle between Parrish and Heddin and both showed good control. Parrish allowed five hits and one pass in nine innings. Heddin only passed one man but was hit hard. Sexton led the locals in batting with four hits out of six times at bat, one of which was a three base hit, while Parrish and Leibovitz both secured three hits. Osburn made a great running catch in center in the ninth which saved the game, and Baker made a wonderful stop of a high throw and tagged a runner at second which was one of the features of the game. To sum it up in a few words it

was a wonderful game considering the fact that neither team has had much practice this year. The locals have a well balanced team which can hit the ball and all fans should assist them in every way possible, for in that way only can we expect to have ball here this year.

PLANT SOY BEANS. A VALUABLE CROP.

Soy beans are a legume, and therefore put the same properties in the soil as clover and cow peas, thus building up the land in the same way as do all other legumes.

Soy beans have not been generally known in this country but a few years, and like everything that is new there have been many mistakes made in their uses and in the selection of the proper varieties.

There are several hundred varieties of these beans, but only a few of these have been grown extensively enough for the seed to be on the general market. However, you can secure from most any good dealer the varieties best adapted to our conditions.

The varieties are Mammoth Yellow, large yellow beans, taking from 80 to 200 days to mature, and does not mature in this climate, but may be planted in the corn, and will furnish a large amount of hay feed after the corn is planted.

The Son is also a yellow bean and matures in 100 or 115 days. This bean is more adapted to planting with the corn as it will mature with the corn.

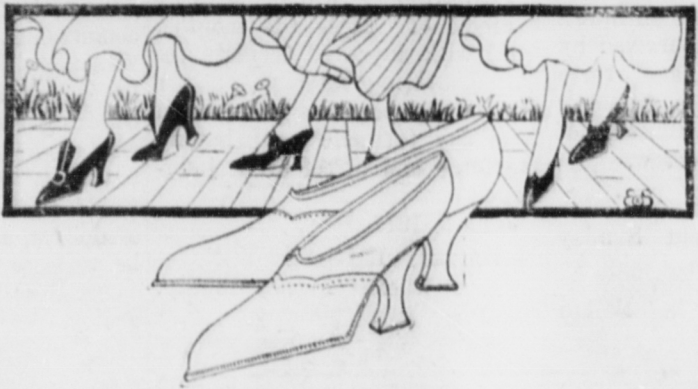

Ebony or Black Beauty is a 90 day bean and will mature if planted in the corn at the last cultivation.

Harberlandt is another 100-day bean found on the general market.

Soy beans are richer than peas in food value and furnish almost three times the amount of feed that peas do under the same conditions.

Soy beans weigh 50 pounds to the bushel and one bushel will drill three acres in rows twenty inches apart, or about eight or nine acres with the corn. The beans yield from ten to thirty bushels to the acre, and there is a good sale for mature seed of good varieties.

"NOVELTY" is the keynote of interest to the smartly gowned woman, whose footwear harmonizes with the rest of the costume. And novelty is featured here as never before for the Summer season of 1916. The lasts are distinctive.

NONE of the little refinements that give charm and smartness to the new pumps are lacking in this summery display. The slender, well arched look they yield to the foot is in keeping with the vogue of the short skirt. It is a "quality" showing of the highest class.

THE KITCHEN CABINET

The world is so full of a number of things,
I am sure we should all be as happy
as kings.

—Stevenson.

FOR THE FAMILY TABLE.

Desserts that are simple to make, economical and wholesome are always in demand.

Brown Sugar Pudding.—Mix four tablespoonsful of cornstarch with two cupsful of brown sugar and when well mixed add two cupsful of boiling water and a pinch of salt. Boil until the cornstarch is well cooked and simmer in a double boiler. Just before taking from the fire add a half cupful of walnut meats, broken in pieces. Serve cold with whipped cream.

Potato Chowder.—Cut a slice of salt pork in dice and fry brown in a soup kettle. Then add three medium sized potatoes and one onion, put through the meat chopper. Add salt and pepper and dredge with flour, cover with boiling water and simmer until tender. Add a pint and a half of hot milk, a small piece of butter and serve with toasted crackers.

Parisian Salmon.—Take a thick slice of salmon, tie it in a cloth and simmer gently in soup stock to which has been added a bay leaf, two chopped onions, a stalk of celery, one diced carrot, and some parsley. Place the fish when cooked on a platter and pour over it the following sauce: Place in a double boiler a cupful of milk, adding half a teaspoonful of beef extract, salt, celery salt and a tablespoonful of cornstarch, mixed with a little cold water. Cook well to cook the starch, then stir in a cupful asparagus tips. Serve a border of mashed potato and small green around the fish with the sauce poured over the fish.

Oatmeal Soup.—Slice a large onion into one teaspoonful of melted butter and let simmer. Add one cupful of cooked oatmeal and cook until the onions are tender. Add a scant pint of milk and salt and pepper to taste. Strain, bring to a boil and serve hot with toasted crackers.

When making celery soup, stew the stalks rather than the heavy coarse stalks, as there is more flavor in them.

Any left-over meats are made appetizing by reheating in any well seasoned sauce.

DAN MURCHISON DEAD.

"Urtle" Dan Murchison, age 72, died at his home six miles north of Fulton at about 12 o'clock last night. Pneumonia caused his death, after an illness of two weeks. He is survived by his wife, four sons and three daughters. He is also an uncle of Jailer Chas. Murchison, of this city. Burial tomorrow.

Charlie Fethe spent Sunday in Union City.

Ben Walker was in Fulton Friday.

THE "YELLOW SHEET."

The Courier is not yet a "yellow sheet" this week of its own choosing; we are merely forced to take what we can get in the paper line — at an advance of 100 per cent since Feb. 1 — and the yellowish, shoddy paper on which we print this issue will likely be a fair sample of the paper we'll use until the war closes. Indeed, there is a possibility that we shall not be able to procure this or any other grade indefinitely. Unless conditions change soon, the Courier and all other weeklies will be forced to raise the subscription rate from \$1.00 to \$1.50; even then, there will be less profit in a subscription than realized on the dollar-a-year basis two years ago. Everything else has advanced in price and it looks like the newspapers are going to be forced to follow suit, unless the editor owns a bank on Wall Street.

A CHILD.

A CHILD'S plaything for an hour.
Its pretty tricks we try
For that or for a longer space,
Then die and lay it by.

BUT I knew one that to itself
All seasons could control;
That would have mocked the sense
Of pain
Out of a grieved soul.

THOU stranger into loving arms,
Young climber up of knees,
When I forget thy thousand ways
Then life and all shall cease.
—Mary Lamb.

BOARD ELECTS HIGH SCHOOL TEACHER.

At a meeting of the Board of Education last week, Miss Margaret Cartwright, of Princeton, Ky., was elected to teach in the High School of Hickman College.

Miss Cartwright comes highly recommended as a teacher. For the past few years she has taught in the High School of Giddings, Texas.

The position to which she was elected was filled last year by Miss V. A. Cartwright, who did not apply for re-election.

CALLED TO REST.

Mrs. Samantha Walton, age 36 years, a resident of Hickman, died Tuesday of articular rheumatism. She was stepmother of J. W. Walton and was buried at Brownsville cemetery. Full particulars are not obtainable at this time.

Miss Nell Bondurant returned home Sunday from North Carolina where she has been teaching.

Miss Mollie Bourne and Leona and Roland Amberg spent Saturday and Sunday in Union City.

THE WEATHER

Probably fair tonight and Friday.

Mrs. Jennie Taylor and children, of Rome, Ga., arrived here Tuesday to attend the bedside of her brother, Leslie Hackett.

Col. C. L. Walker returned home Wednesday from a business trip to Marianna and Hughes, Ark.

RIVER FORECAST.

During the next few days: A slight fall will continue in the Tennessee; the Mississippi, above Cairo, will change but little during the next two days, a rise, amounting in all to two feet or more over present stages, setting in Friday.

O. A. Tillman, of Caruthersville, Mo., is the guest of his brother, A. O. Tillman, the Lee Line agent.

Mrs. Mitchell Wright left Sunday for Murray.

126 PEOPLE PERISHED IN MONDAY'S STORM.

One hundred and twenty-six deaths have been reported from the storm-swept section of Arkansas, Missouri and Illinois as belated reports were received from communities which suffered in a series of tornadoes Monday night and early Tuesday. A number of persons were unaccounted for and believed dead and several hundred were injured. Accurate estimates of property damaged were not available, but all figures ventured by property owners ran into the hundreds of thousands.

Incomplete tabulations showed the following deaths:

Arkansas 76.
Missouri 30, probably more.
Mississippi 15.
Illinois one.

Tennessee 4, with a score or more missing in the overturning of the Mississippi River Packet Eleonore.

The casualties in Arkansas were from every section. Scarcely a county escaped the path of twisters, which traversed the entire state. Jackson and Vicksburg suffered from the storm in Mississippi. Many of the casualties in Arkansas and Mississippi were negroes. In Missouri the Popular Bluff section was well nigh devastated.

Thirty or more lives were lost when the Lee Line Steamboat Eleonore was overturned during a tornado Monday night south of Pleasant View, Tenn., 20 miles above Memphis. All but two of the victims were negroes. Near ten o'clock a storm described by survivors as an "electrical tornado," swept up the river from the south. The Eleonore was tossed about like a cork and pulled heavily against her moorings. Suddenly a gale caught her amidships and hurled her over on her side. Immediately all was confusion. Survivors even now cannot tell just what happened. Cabin passengers scrambled frantically for windows and doors. Many, scantily clad, were thrown into the river and swam to the nearby shore. The survivors made their way to a nearby house, where shelter was provided for all. The storm raged for several hours and little could be done toward helping the injured or recovering the bodies of the dead.

THE DRAINAGE SURVEY.

If all plans are successfully consummated in regard to the new city levee—and it is to be hoped they are, as a levee will be built this year or not at all—the city fathers will have an engineer here in the next ten days for the purpose of making the plans for a drainage system. This system must be adequate for handling both the rain and seep water, and is no small undertaking.

SPAN'S BABY DIES.

The little 16 months old daughter of E. P. Span and wife, residents of the Henry Addition, died last night of flux.

Burial this afternoon at the city cemetery.

The C. L. and S. Club met with Miss Marguerite Fuqua Monday night. An interesting paper on "Paganini and the Violin" was read by Miss Adkisson followed by "The Beginning of the Violin," by Miss Happy. Miss Fuqua also read a short article on the life of Paganini. An interesting musical contest was enjoyed, after which cream and lemon wafers were served.

Puff Hawkins was here yesterday from Paducah for the purpose of making a bid on the engineering work in connection with the city levee and drainage system. This work, we understand, had been previously promised to a Nashville engineer.

Mrs. Wright Phebus and children, of Union City, are visiting Mrs. C. H. Moore and family.

Prof. B. F. Gabby sold his home yesterday to Dr. H. E. Prather for \$2,750.

Arch DeBow returned Monday from a short visit to Louisville.

Miss Virginia Curlin returned Sunday from a visit in Dixon.

Miss Bessie Choate is visiting friends in Mayfield.

MAY RAISE COAL RATE.

We understand the Interstate Com. Commission is again figuring on raising the coal rate for the N. C. & St. L. Ry. from West Kentucky points into Hickman — contemplating an advance from \$1.25 to \$1.50. They gave us a 5c raise last year. It seems the commission fails to recognize river competition here, and we may be forced to install facilities for handling river coal again before we become immune from further advances. But, in either case, it would cost our citizens hundreds of dollars, and an attempt should be made to convince the commissioners of the injustice of such a step.

CARR GETS GOOD JOE.

According to press reports, Herbert Carr, a prominent attorney of Fulton, was appointed yesterday by Gov. Stanley as member of the Board of Prisoner Commissioners. This is a good position—carrying a fair salary and little work.

Col. and Mrs. C. L. Walker and Miss Frankye Reid went to Memphis Friday to see the Preparedness parade on Saturday. Mrs. Walker and Miss Reid returning Sunday, Col. Walker going to Marianna, Ark., on business.

Leslie Hackett is seriously ill.

Mrs. R. B. Johnson left Monday for Jackson to visit her uncle, Matt Moore, and wife, and brother, Harvey Trice.

Miss Mena Diestlebrink leaves Friday for Rockport, Ky., to visit her sister, Mrs. George Bartlett, and family.

D. P. Leibovitz spent Sunday in Kenton.

Mrs. A. E. Owen and little son went to McKenzie Saturday. Mr. Owen joining them Sunday morning, returning that night.

T. S. Hamilton returned to Louisville last week after a business trip here.

George Vance spent Saturday and Sunday in Union City with his grand-parents.

Would You Pay Fifty Cents a Week for a Servant?

Electricity is the world's most efficient household servant. Electricity, for lighting and the commonest household tasks, can be furnished the average home for about \$2.00 a month at the usual rates for current. This allows energy for daily use of the vacuum cleaner, weekly use of washing machine and electric iron, and light for every room during the hours you need it.

Wire Your Home on Easy Terms

For the initial wiring we will accept a small first payment and the balance in monthly installments so small that you will hardly miss them. All the time you are paying you will be enjoying your new comfort. Remember—there is almost no end to the tasks that can be either performed or made easier by electricity—no limit to the comforts it will bring you—and all at small cost.

G. O. P. STILL JUGGLING.

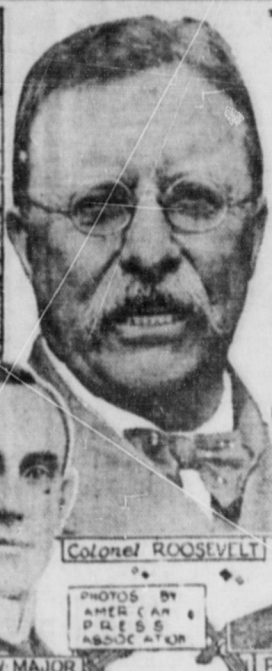

The G. O. P. in convention at Chicago since yesterday morning, has not yet been able to agree on a nominee. T. R. is a thorn in the flesh of the regulars. The juggling still continues at the hour of going to press.

County School Notes

By Miss Virginia Luten
County Supt.

The Sylvan Shade school district has been very liberal and enthusiastic in the support of the school. More than \$2,000 has been subscribed. This is by far the largest amount ever subscribed at one time by any of our districts and indicates a very progressive spirit among the people of that community. They are planning to employ a high school teacher in addition to the two grade teachers, to extend the term, and with the aid of the county to enlarge the school grounds and build a modern school house with three or four rooms.

The next examination for teachers certificates will be held June 16th and 17th. This will be an examination for county, eight year state and high school certificates. The examination for high school certificates will include the following subjects: rhetoric and composition, algebra, American literature, English literature, geometry, English classics, history and civics, pedagogy and psychology, with subjects are required of all applicants and also the additional subjects applicant expects to teach.

POINTS FOR HUNTERS.

It seems that quite a few folks in Fulton county are "balled up" on the Kentucky game laws as regards some of the most common game. Better be careful, lest you find yourself hauled up in court. The Courier gives the following points of law for the benefit of those interested:

Lawful to kill—Quails, Nov. 15 to Jan. 2. Doves, Sept 1 to Oct. 16. Rabbits, Nov. 15 to Jan. 1. Wild Ducks and Wild Geese, Aug. 15 to April 1. Squirrels, July 1 to Dec. 16.

Unlawful to sell—Quail, Woodcock, Pheasant, Wild Turkey or Hungarian Partridge at any time. Rabbits from Dec. 31 to Nov. 15. Deer and Elk protection until Nov. 15, 1921.

Shipping—Unlawful to transport or receive for transportation any game bird, but lawful to transport a hunter with his game. Trapping of birds prohibited.

License—Landowners and tenants and members of their families may hunt upon their own land only without license. License entitles holder to hunt anywhere in the State, but unlawful to hunt upon the land of another without permission.

Bag limit—Unlawful for anyone to kill more than 12 quail or 15 doves in any one day during open season.

Federal regulations—Unless the Federal law is declared unconstitutional, Wild Ducks and Wild Geese can be killed only from Sept. 30 to Jan. 17. Shooting prohibited on migratory game birds between sunset and sunrise.

Fish—It is unlawful to take or attempt to take fish from any of the waters of the State, except private ponds or lakes, in any manner whatsoever, except with pole and line, trot line, hand line and set line.

Fur-bearing animals—Unlawful to take or kill, Beaver, Fox or Otter, from Dec. 31 to Nov. 15. Raccoon, Skunk, Mink and Opossum, from Feb. 15 to Oct. 1. Trapping prohibited upon the land of another without written permission and permit must be in possession to show upon demand.

A MEDICINE OF MERIT

Meeting With Great Success As It Fills a Long Felt Want.

There are many new articles being put on the market each year, but seldom has any new medicine gained the praise of the public as Lemolac has; this is due to the fact that Lemolac is a substitute for Calomel that really does the work in such a pleasant manner. It does not gripe, sicken or salivate you and cause you to lose time from your work. The name, Lemolac, is very easy to remember as it is Calomel spelled backwards. We don't mind advertising an article of merit and we believe any one will praise Lemolac who gives it a trial. We are advised that Helm & Ellison sell lots of Lemolac. Adv.

HELP FOR WORKING WOMEN

Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health:—

Frankfort, Ky.—“I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all you claim. Now I feel as well as ever I did and am able to do all my own work again. I recommend it to any woman suffering from female weakness. GERMAN U BOATS TO BREAK BLOCKADE.

The establishment of a transatlantic service between New York and Germany, to be carried on by giant submarines, is a possibility of the near future. This was the announcement of a prominent New York shipping man who had just returned from Hamburg. For obvious reasons his name can not be used.

These great submersible “liners” are the “largest undersea boats” that have left Germany. They have been diverted from the purpose of war and will be classed as commercial vessels only, according to the information obtained. Germany's object in this is to break the British blockade and also to re-establish a regular mail service between the two countries.

“Wearied by continuous interference with mails, the German government has decided to try this method of transporting letters to America and also small valuable cargoes of chemicals which it is now impossible to export because of the British blockade,” said this man. “Some of these chemicals are now worth many times the original value, and the delivery of even a small quantity would pay a big profit.”

“These supersubmersible, 450 feet long, with a surface speed of fourteen knots, will be regarded as merchantmen by the Berlin government. They will be armed ‘for defense only,’ and it is expected they will receive the same treatment from this government as the merchant vessels of the allied nations which have entered and cleared American ports armed for defensive purposes.”

“As commerce destroyers the big undersea craft carry eighteen or twenty torpedoes, but as mail boats they will have no torpedoes or tubes. The only armament will be two small guns in the conning tower to be used for defense. The space thus made available through the absence of torpedoes will be used for mails and valuable merchandise.”

“If the initial voyages are successful it is probable that a small number of passengers will be carried. Assured that the passage would not be interfered with by the British, there are many persons who would pay a large amount for transportation across the Atlantic at this time. As many as ten passengers could be carried by the big submarines.”

Capable of carrying enough oil to propel them 6000 miles, the new transatlantic submarines would be able to make a round trip, it was said, without taking fuel here. If they were regarded as merchantmen, however, it is believed there would be no objection to their taking fuel and supplies at an American port at any time.

If a speed of fourteen knots were maintained the German engineers figure that the voyage from Bremerhaven to New York would be made in just under ten days. They do not expect, however, to accomplish the first voyage in less than twelve days.

A description of the new “undersea liners” will give an idea of their capabilities. With a length of 450 feet the vessels will have a beam of 40 feet, and there will be a “superimposed deck” which will give additional space for living quarters and in which there will be staterooms with ports. Above will be the conning tower, the bridge of which will be thirty feet above the normal water line. There will be a crew of fifty to sixty men.

“We cannot overestimate its value to Germany if this idea can be put through,” said a German shipping man recently. “It will not only effectively break the British blockade, but make the delivery of German mails not only possible, but regular. Also, there would be the moral effect of knowing that Germany had armed ships for defense only and would not attempt to destroy enemy merchantmen unnecessarily with these transatlantic submarines.”

NEED MORE FACTORIES.

It is strange that the merchants of a town, and business men generally, don't take more interest in trying to land a manufacturing plant of some kind that would employ 100 or more skilled workmen. New factories are springing up every day. Most any kind of a plant is worth thousands of dollars to any community, because a skilled workman who makes good

LEEVE MACHINE IS GIVEN SATISFACTORY TRY-OUT.

A try-out of the big levee machine, which has been under progress of construction for several months by the Ogelsby Construction Co., successful bidders on the big Missouri contract, was made last week and the machine worked very satisfactorily. The present high water has temporarily stopped them, but work will begin in earnest when the river recedes.

The work of this machine will be watched with more than passing interest by all levee contractors. This is about the first big contract to be handled exclusively by machinery. The machine is an enormous affair, operating by steam power and using a system of cables and buckets. If it proves satisfactory, as is confidently expected, the day of the mule and scraper levee building outfit has passed, for this contract was taken at figures far below the cost of operating in the old way. It is true the construction company is not going it blindly on the machine proposition. They have experimented considerably with machines similar to the big one now erected in Missouri, and are satisfied it will do the work; but the present contract, taken day in and day out, under all conditions, will be a thorough test of the practicability of the new innovation.

Mrs. Bailey Huddleston gave a brilliant reception Wednesday afternoon of last week in honor of her guests, Mesdames Clint Hayden, of Wallonia, Ky., Pomp Binford, Addie Biggerstaff and Miss Lois Collins, of Fulton, and Miss Lois Bartlett, of Rockport, Ky. Floral decorations adorned the entire lower floor of this handsome home in rich profusion. Master Harry Moss opened the doors of the reception hall which was beautifully decorated in ferns and lilies. Mrs. R. O. Harris and Mrs. Mary Ligon cordially received the guests who were then served punch by Mrs. C. H. Moore and Mrs. R. Burnett, after which they were conducted into the library by Mesdames R. Phipps and T. R. Powell. Inside the door Mrs. Huddleston extended a gracious welcome and was assisted by Mesdames Clint Hayden, Binford, Biggerstaff, Misses Collins and Bartlett. In the library pink roses and honeysuckle made a most beautiful setting for the handsome gowns worn by hostess, honoree and guests. Mrs. R. B. Johnson and Miss Jodie Winston invited the callers into the dining room, where red rambler roses gave an added beauty to the interior. The table was especially pretty with a large plaque of red rambler roses and lighted by crimson lights. A salad course was served by Misses Annie Carr Ligon, Mary Hardy Ligon, Anita Dodds, Annie R. Moore and Mary Tempa Burnett. Mrs. B. J. Hartwick and Miss Homer Green were stationed at the entrance of the parlor door, and it was beautifully decorated in white roses and fully decorated in white roses lilies. Here the guests enjoyed the Victrola, presided over by Miss Esther Bartlett and music on the piano and violin by Mrs. P. B. Curlin and Mrs. Zinsfeld. Each departing guest was then presented a spray of sweet peas by little Misses Mildred Huddleston, Louise Binford, Rena Biggerstaff and Ruth Ligon. About one hundred guests had the pleasure of enjoying Mrs. Huddleston's gracious hospitality.

Misses Bertie May and Magalee Rice entertained Friday afternoon at the Moose Club in honor of Miss Lois Bartlett, of Rockport, Ky. Rook and 500 were played. Cream and cake were served. Those present were Mesdames Dee Henry, B. Huddleston, R. E. Blow, Jessie Dillon, Misses Vina Carr, Mena Diestelbrink, Esther Bartlett, Thelma Baltzer, Annie Lee Brown, Louise Atwood and Emma Tyler. Out of town guests: Mrs. Johnson, of Jackson, Miss Nina Goodlit, of Dyersburg, Miss Harrison, of Paducah, and Miss Sarah Wynn McConnell, of Arlington.

Mrs. Guy Hale entertained the Bridge Club Friday evening in honor of her aunt, Miss Mabel Truby, of Nashville. A salad course was served. Those present were: Mesdames A. S. Birnbaum, A. E. Kennedy, T. R. Powell, Jessie Dillon, F. M. Maddox, C. T. Bondurant, W. B. Amberg, C. M. Reynolds, Misses Louise Atwood and Nell Rogers. Out of town guest: Miss Nina Goodlit, of Dyersburg.

Mrs. C. M. Reynolds entertained the Bridge Club Monday evening in honor of Miss Mabel Truby. A salad course was served. Those present: Mesdames T. R. Powell, A. S. Birnbaum, A. E. Kennedy, W. B. Amberg, R. G. Stone, C. T. Bondurant, H. N. Cowgill, Guy Hale, Misses Nell Rogers and Marie Brevard.

LEEVE BONDS SOLD AT \$909 ABOVE PAR.

The successful bidder on the city's \$15,000 worth of Mississippi river levee bonds was Well, Roth & Co., of Cincinnati. The bid was \$909 above par value.

Bids were opened at the Monday night council meeting. Three bids were received. The Farmers & Merchants Bank, of Hickman, was the second best bidder and was only \$9 under the Cincinnati firm, offering \$15,900 for the issue. The other bidder stipulated certain interest terms, not compatible with the city's terms.

"A Safe Place to Trade"

MUST STAY SOBER TO GET FORTUNE.

New York.—If on March 2, 1917, Oswald Jerome O'Brien, who lives at the Fairmount hotel in Jersey City, is able to convince the supreme court of New York county that he has been sober for two years, he can recover a fortune he voluntarily placed in trust for the benefit of his wife, himself and their son.

Early in February Mrs. Ethel D. O'Brien caused a commission to be appointed to inquire into her husband's sanity. The evidence showed he drank heavily, and during these periods was so liberal with his money that Mrs. O'Brien feared she would be impoverished.

She therefore appeared before Justice Page and asked that she be appointed conservator of her husband's property and person. Thereupon O'Brien agreed to place his entire estate in the hands of the Empire Trust company. He said this consisted of a bungalow at Lake Hopatcong, N. J., and securities valued at upward of \$125,000.

He offered to instruct the trust company to pay to Mrs. O'Brien for the support of herself and son \$4,500 a year, and to himself \$3,000 a year. He suggested that if at the end of two years he proves he has given up drink he is to get the property back. If he fails to submit proof he can make a second attempt in 1919.

Justice Page thought the arrangement a good one.

WHEAT HARVEST IS ON. BIG YIELDS IN BOTTOM.

The wheat crop of the lower bottom is unusually fine this year, some of the specimen heads shown here measuring five to seven inches in length. The yield is estimated at from 25 to 30 bushels to the acre. Some little damage has been sustained because of the Hessian fly, but this is nominal. In this section, cutting began Monday.

Wheat in the hills will not be anything like a normal yield, and cutting will hardly start before next week.

A Card to the Trade

Conditions of the markets have reached a pass that have forced upon us a decision whether to allow deterioration in the quality or to alter some of our prices. As our goods and brands have uniformly enjoyed the confidence of the buying public, we have determined that it is to the best interest of our friends and customers to uphold the standard of our line, and we confidently look for the co-operation and endorsement of this course by the trade.

At the present time the tendency is towards higher levels of prices in the near future. The higher cost of all raw materials will, of necessity, further advance prices soon.

LORD KITCHENER AND STAFF LOST AT SEA.

Earl Kitchener, British Minister of War, and his staff were aboard a British cruiser which was sunk by a mine or torpedo off the Orkneys, Tuesday.

Earl Kitchener was on his way to Russia.

Admiral Jellicoe reports there is little hope that there are any survivors. Admiral Jellicoe's report follows:

"I have to report with deep regret that His Majesty's ship Hampshire, with Earl Kitchener and his staff aboard was sunk Tuesday night at eight o'clock by a mine or torpedo. Four boats were seen by observers on shore to leave the ship. The wind from the northwest and a heavy sea was running."

Earl Kitchener was appointed Secretary of State for War in August 8, 1914, a few days after Great Britain declared war on Germany, and was regarded as England's greatest soldier and the government has trusted him with supreme direction of the war.

MAKING OF CROQUETTES.

Croquettes will never lose their hold upon us, for they are most delightful dishes when well seasoned and carefully drained after frying.

The tedious method of handling, dipping and rolling each one in crumbs may be done much faster if the croquettes are rolled in fours, dipped and crumbed in fours, the egg can be thrown over four as quickly as over one. Then in frying have the fat the right temperature for the mixture, brown a cube of bread in the fat. If it browns in forty seconds it is ready for cooked mixtures and sixty seconds for uncooked mixtures. When eggs are high a tablespoonful of water can be added to each egg without making any difference in the process, thus saving quite a little egg when making a number of croquettes. One good croquette maker says she uses as much water as egg and can see no difference.

The white sauce to use in binding croquettes should be thicker than the ordinary white sauce. Use a half cupful of flour, one-half teaspoonful of salt, four tablespoonfuls of butter and a pint of milk. When the butter is bubbling hot, add the flour and when mixed pour on the milk; cook until smooth and thick.

Macaroni croquettes are most tasty. Mix cooked macaroni, broken in very small pieces, with a thick seasoned white sauce to which a little grated cheese has been added. Place in a cool place until firm, then dip in egg and crumbs and fry as usual.

Potato Croquettes With Peas.—Make the potato balls, scoop out the center and fill with seasoned peas, cover and roll in eggs, crumbs and fry. Serve with a thick white sauce, garnished with parsley.

Salmon mixed with a chopped sour pickle, white sauce and seasonings, formed into croquettes makes another good supper dish. Serve with rice potato.

A very thick white sauce, stirred thick with cheese, cooled, then molded into balls and dipped in buttered brown crumbs is a tasty dish.

If you have the itch, don't scratch. It does not cure the trouble and makes the skin bleed. Apply BALLARD'S SNOW LINIMENT. Rub it in gently on the affected parts. E. Johnson is ill with malaria.—P. J. Oliver has a new Ford.—Kate Lee Tucker died June 4, 1916, at her home after a long illness of tuberculosis. She was born Jan. 8, 1902. She was a patient sufferer, always sweet and kind and just before the end she called all her friends and loved ones and talked in a strange voice until the end, her eyes shining, telling them not to grieve for her and how to live to meet her in heaven here she would soon be with mother and Jesus. Interment at Cayce cemetery. Funeral services by Rev. S. A. Martin. Six of her girl cousins acted as pall bearers. She leaves a father, Jas. Tucker, five sisters, and one brother and a host of friends and relatives. The family have our entire sympathy in the loss of this dear sweet member.

Mrs. Ernest Croason delightfully entertained the Social Embroidery Club on Monday afternoon. A brief business session was held, after which several hours were spent in crocheting. Two delightful papers were read by Mrs. Pyle and Mrs. Powell. During a social hour delightful refreshments were served. Aside from the members two invited guests were present. The club meets with Mrs. W. F. Edmonds on June 12th.

THE Prince Albert tin, and in fact, every Prince Albert package, has a real message to you on its reverse side. You'll read: "Process Patented July 30th, 1907." That means that the United States Government has granted a patent on the process by which Prince Albert is made. And by which tongue bite and throat parch are cut out! Everywhere tobacco is sold you'll find Prince Albert awaiting you in tippy red bags, 5c; tippy red tins, 10c; handsome pound and half-pound tin humidor and in that clever crystal-glass humidor, with sponge-moistener top, that keeps the tobacco in such fine condition—always!

COUNCIL MEETS TONIGHT. CONSIDER TAX MEASURE.

The city fathers will meet again tonight for the purpose of taking some final action on the noted "occupation tax measure," which might be said to have been "hanging fire" for several months, and during the rush of other matters.

This is purely a revenue measure, designed to raise money for the immediate financial needs of the city. The full text of the ordinance has been printed in the Courier, but the original has been revised and brought to a more equitable basis, we are told. In a word, all business and professional men, will be forced to pay a license tax, which varies according to the nature of the business.

TENNESSEE TO HAVE THE 2½ CENT RATE.

Three cents per mile as a passenger fare in Tennessee was held to be too high in a decision handed down by the Tennessee railroad commission in the test case of the Illinois Central railroad. The road is allowed thirty days in which to reduce its present schedule of passenger rates from three cents per mile to two and one-half cents.

The case before the commission affects the other railroads operating in the State of Tennessee and it is thought that at the same time ruling will be made to apply to each and every one of these roads.

The case has been pending since October 9, 1913, when the Tennessee railroad commission notified the Illinois Central Railroad Company to appear before it on October 27, 1913, and to show cause why its rates should not be lowered.

NAVAL BATTLE GREATEST IN WORLD'S HISTORY.

The world's greatest sea battle occurred last Wednesday when the British and German high sea fleets met off the coast of Jutland, in the North Sea, and engaged in a battle which continued throughout the afternoon and into the night. When the battle ended, thousands of men and many ships—the pride of the two great navies—had gone down.

If revised British reports are accepted, their losses in ships are, as follows:

British: Three battle cruisers: Queen Mary, Indefatigable, Invincible. Three armored cruisers: Defense, Black Prince, Warrior. About a dozen destroyers and one submarine.

German: Two battleships: Westfalen and Pommern. Two battle cruisers (unnamed). Four light cruisers, including Wiesbaden, Elbing, Frauenlob. Six destroyers and submarines.

The British Admiralty in addition has admitted that the battleship Marlborough was struck by a torpedo, but declares she was towed safely to port.

It denies the German claim that the dreadnaught Warspite was sunk, although conceding she was damaged by gun fire.

It is plain by the comparison of the losses of the two fleets that Germany won a decided victory over the powerful armada of the Mistress of the Seas. This was the first time the German and British naval forces had really matched strength and strategy in the present war and was undoubtedly the greatest naval battle in all history. That the British fleet, regarded by all the world as practically invincible, the British fleet which has kept the German fleets blockaded in their ports for over two years, should have come out of the encounter beaten is no doubt a surprise to the entire world. Germany included. As to England, it must have created a veritable panic there. English sea power is the pride and boast of every Englishman, it is the staff he leans upon and the giver of his restful dreams. On her fleet England has staked her chief dependence in the present war, and there is no telling what far reaching effect on British morale the loss of this North Sea battle may be.

CALOMEL DYNAMITES A SLUGGISH LIVER.

Crashes Into Sour Bile, Making You Sick And You Lose A Day's Work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50 cent bottle of Dodson's Liver Tone, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it. Ad.

FIRE CHIEF'S SALARY FIXED AT \$60 MONTH.

The city fathers, at their regular meeting Monday night, passed on the matter of fixing a salary for our fire chief—who at this time happens to be Ben Posey—and fixed the amount at \$60 per month to start. This will probably be increased considerably by other duties which the city is planning for the same officer, namely by making him city jailer, since the city hopes to combine fire department and city jail in the same building and under the supervision of the same officer.

\$100 RAISE FOR CARRIERS.

It will be of interest to all rural carriers in Kentucky to learn that the Senate committee on postoffices and postroads has just voted into the postoffice appropriation bill a provision under which each of the 42,000 rural mail carriers in the United States will receive the \$100 increase in salary which they failed to get last year because of the inability of Congress to agree on the postoffice bill. If this action stands the \$100 will be a permanent addition to each carrier's salary.

PRESIDENTIAL POINTERS.

Under its present name the Democratic party first appeared in 1828 with Andrew Jackson as its successful candidate for president. The Democratic parties go back to the days of Jefferson, who is regarded as its founder and who advocated local government as opposed to the centralized government of Hamilton. It was first called the Republican-Democratic and finally Democratic. It elected Jefferson twice, John Quincy Adams once, Jackson twice, Van Buren, Polk, Pierce, Buchanan once, Grover Cleveland twice, and Woodrow Wilson once.

ORDINARY DISHES.

It is not so much the kind of food one prepares as the way it is prepared and the daintiness of its serving which is important.

Oatmeal Scones.—To one cupful of well-cooked oatmeal porridge add one cupful of milk, one tablespoonful of melted butter, one teaspoonful of brown sugar and a little salt. Mix these ingredients well. Sift two teaspoonfuls of baking powder, with one cupful of flour and stir in the mixture, adding flour to make the dough stiff enough to handle. Roll out half an inch thick, cut with a sharp biscuit cutter and bake a delicate brown on a hot buttered griddle.

Honey Cakes.—Beat to a cream a half cupful of strained honey. Stir in two cupfuls of flour, sifted with two teaspoonfuls of baking powder and a half cupful of chopped filberts. Let this mixture stand over night to become thoroughly cold, but do not freeze. Roll out very thin and cut in fancy shapes, sprinkle with nuts.

Danish Jelly.—Cut a bunch of fresh rhubarb into inch pieces and put into a baking dish, sprinkle with a cupful of granulated sugar and a cupful of boiling water. Cook until the sirup is thick. Squeeze over the fruit the juice of half a lemon and remove from the fire. Then add enough bread-crumbs to absorb the sirup and turn into a mold to harden. Turn out on a chop plate or platter and surround with whipped sweetened cream.

A simple dessert, and one well liked by everybody, is a pastry shell baked, then filled with any kind of fruit, covered with whipped cream and served at once before the crest is soaked if the fruit is juicy.

Nut Bread.—Mix together two cupfuls of graham flour, one cupful of white flour, one tablespoonful of brown sugar, one-half cupful of broken nut meats, one-half cupful of raisins and dates, mixed and finely cut. When well mixed add two tablespoonfuls of molasses, one teaspoonful of soda, dissolved in a tablespoonful of hot water, and a cupful and a half of sour milk. Bake 45 minutes in a moderate oven.

WILL HELP FARMERS.

There are 12,000,000 farmers in the United States. Their farms are mortgaged for about \$3,000,000,000. They are paying an average interest rate of 8½ per cent or \$255,000,000 a year for the use of this tremendous sum of capital. The pending rural credit bill, now sure of passage, makes six per cent the maximum interest rate, saving to the farmers \$75,000,000 a year.

Teething babies always have a hard time of it when this process occurs in hot weather. They not only have to contend with painful gums but the stomach is disordered, bowels loose and the body uncomfortable. The best help you can give the little sufferer is McGEE'S BABY ELIXIR. It corrects sour stomach, cools and quiets the bowels and helps digestion. Price 25c and 50c per bottle. Sold by Hickman Drug Co.

COTTON SEED USED FOR A VARIETY OF PURPOSES.

Although thousands of tons of cotton are produced and shipped from Fulton county, we doubt if the men who raise the seed have the slightest idea of the many uses to which it is put in the form of manufactured articles. Twenty-five years ago Southern farmers were dumping cotton seed into the rivers and using it to fill ditches. They didn't know what else to do with it. It wasn't good for anything.

Today its commercial value is far more than one hundred and fifty millions of dollars a year. Cotton seed oil alone last year was worth eighty millions of dollars.

Do you know for what cotton seed is used? Have you any idea in how many and various ways it is employed? You eat it; you burn it in your lamps; you use it to wash your hands; you wear it; your writing paper is made of it, and so are your underclothes; you spread it on your fields and feed it to your stock and your children; it is in your axle grease and your soap, in your roofing material and your linoleum, in your medicine and some in the delicacies of your table. The films of the moving pictures are made of it, and it is used in the powder which is supplied to the war-torn armies of Europe.

Here is just a partial list of the many purposes for which cotton seed is used:

Linters are used for batting and wadding; stuffing pads, cushions, comforters, horse collars, mattresses, etc.; medicinal cotton, mixing with shoddy for making hats, fleeced lined underwear and felt; in low grade yarns for lamp wicks, twine, rope and carpets; in the form of cellulose for writing paper, gun cotton, varnishes for coating leather and metals, all kinds of celluloid articles, artificial silk and photograph films.

Hulls are used for stock feed, fertilizers, fuel, packing material, cellulose, explosives, and when reduced to fiber it is used in the manufacture of thousands of useful articles, such as buckets, kitchen utensils, etc.

Meats are used for dyestuffs, fertilizers, poultry feed, stock feed and often in making wheat flour; for cosmetics, lard, cooking oil and salad oil; stearin, packing olives and sardines, oleomargarine, emulsion oil, sweet oil and deodorizing oil; soap and putty, washing powders, candies, glycerine, nitro glycerine and filling wear; to say nothing of composition roofing, linoleums, insulating materials, oilcloth, water-proofing, paint, cotton rubber, upholstering and book binding.
